

外SOTO® BIRD RID

Birds such as Pigeons, Crows, Eagle, Kite, Bat and Sparrows often create health hygiene issues and structural issues in residential, commercial, and industrial spaces. Their droppings not only spoil the appearance of buildings but also carry harmful bacteria and cause corrosion of surfaces, leading to long-term maintenance problems.

SOTO BirdRid is an environmentally safe, sustainable and effective solution designed to keep birds away without causing them harm. Made with advanced, non-toxic formulation, it creates deterrent environment for birds while remaining safe for humans, pets, and the surrounding ecosystem.
