

BIRD RID SERVICES

Safe & Effective Solution

Birds such as Pigeons, Mynas, and Crows, Eagle, kite and bat often create hygiene issues by nesting and roosting around buildings. Our professional bird control service helps maintain a clean, safe, and environmental free application.

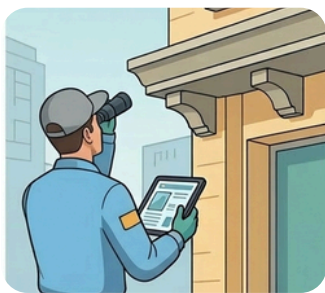

Key Benefits of Bird Control Service

- ✓ Hygienic Environment
- ✓ Prevent Bird Nesting
- ✓ Effective Bird Management

Dependable Networks of Professional

OUR BIRD CONTROL SERVICE INCLUDE :

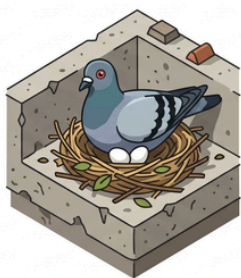

INSPECTION

Our trained technicians perform a detailed inspection to identify bird activity areas, nesting points, and roosting spots.

Spray of Walls & Roosting Spots

We apply professional treatment spray on walls, ledges, beams, and other common roosting areas to deter birds and maintain hygiene.

Spray of Nesting Areas

Targeted spraying is done around bird nesting zones to sanitize and discourage further nesting.
